Insurance and Finance

Reproductive Specialists of New York understands the stress patients feel during this process. Their nurturing care for patients also extends to dealing with insurance and financial issues. Our financial coordinators try to make this aspect of treatment as easy as possible.

We participate in many different insurance plans and work together to maximize insurance benefits.

Reproductive Specialists of New York has also packaged the cost of treatment for those patients that do not have insurance coverage for fertility treatments.

INFERTILITY DEMONSTRATION PROGRAM (IDP)

Reproductive Specialists of New York is proud to have been selected as a participant in the NY State Department of Health Grant Program. New York State Residents earning less than \$200,000 are eligible for this subsidy.

The physicians and staff of Reproductive Specialists of New York are proud to be affiliated with

HOW WE STAND APART FROM THE OTHERS...

Here are some of the important benefits you can only find at Reproductive Specialists of New York:

- Our offices are fully staffed by physicians and offer compassionate and personalized care seven days a week to provide the help you need, when you need it.
- We provide early appointments and cutting edge infertility treatments.
- We are the largest and most experienced fertility center in the Long Island/New York region.
- Our board-certified reproductive endocrinologists are nationally-recognized experts in many aspects of reproductive challenges and treatments.
- We work closely with experts in other specialties, including urology and reproductive genetics, who can help uncover all potential obstacles to conceiving.

REPRODUCTIVE SPECIALISTS OF NEW YORK

Sometimes there are conditions affecting a woman, her partner, or both that make it difficult or unlikely to achieve a healthy pregnancy.

Fortunately, there is a solution.

Our team of doctors began treating patients with fertility problems in 1991 and founded Reproductive Specialists of New York in October 1997. Our vision was to offer the field's most advanced techniques for fertility treatment in a comfortable and supportive environment.

As reproductive endocrinologists trained in treating fertility problems, the physicians will help you and your partner understand the many causes of infertility, or any medical conditions that may be adversely affecting your pregnancy attempts. Your success improves when you start treatment as soon as you may think there is a problem. You have options. These options are effective with impressive rates of success.

In keeping with their motto, "Patients come first," the team of doctors maintain a staff of experts in their fields who are dedicated to putting the patient's needs first. They are specifically trained to address the personal concerns of patients and to provide individualized care.

The physicians and staff of Reproductive Specialists of New York are proud to be affiliated with:

Brooklyn Hospital
Good Samaritan Hospital
Long Island Jewish Medical Center
Nassau University Medical Center
North Shore University Hospital
Stony Brook University Medical Center
Winthrop University Hospital

Fertility Evaluation and Treatment

There is one common goal and it is to help you achieve a healthy pregnancy. The first step is to assist you and your partner in understanding the medical conditions that may be adversely affecting your pregnancy attempts.

The next step is to determine the proper reproductive treatment plan that best meets your needs.

Treatment Options

- Monitoring Ovulation and Fertility Medication
- Hormone Imbalance Evaluation
- Intrauterine Insemination (IUI)
- Management of Endometriosis
- Management of Polycystic Ovarian Disease
- Recurrent Pregnancy Loss Treatment
- In Vitro Fertilization (IVF)
- Intracytoplasmic Sperm Injection (ICSI)
- Preimplantation Genetic Diagnosis (PGD)
- Sperm / Egg Donation / Gestational Carrier
- Fertility Preservation
- Semen Analysis
- Egg Check Test

State-of-the-Art IVF Facility

Reproductive Specialists of New York offers the most advanced facility for assisted reproduction. The center offers a comprehensive range of services including ultrasounds, exam and procedure rooms; andrology, embryology, and hormonal assay laboratories and retrieval, transfer, and recovery suites.

The facility was designed for maximum comfort and convenience so that patients feel at ease every step of the way. The IVF facility has been accredited by the Society of Assisted Reproductive Technologies (SART) since 1990.
